Information for your safety and comfort

Read these instructions carefully. Keep this document for future reference. Follow all warnings and instructions marked on the product.

Turning the product off before cleaning

Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

Caution for plug as disconnecting device

Observe the following guidelines when connecting and disconnecting power to the external power supply unit:

- Install the power supply unit before connecting the power cord to the AC power outlet.
- Unplug the power cord before removing the power supply unit from the projector.
- If the system has multiple sources of power, disconnect power from the system by unplugging all power cords from the power supplies.

Caution for Accessibility

Be sure that the power outlet you plug the power cord into is easily accessible and located as close to the equipment operator as possible. When you need to disconnect power to the equipment, be sure to unplug the power cord from the electrical outlet.

- Do not use this product near water.
- Do not place this product on an unstable cart, stand or table. If the product falls, it could be seriously damaged.
- Slots and openings are provided for ventilation to ensure reliable operation of the product and to protect it from overheating. These openings must not be blocked or covered. The openings should never be blocked by placing the product on a bed, sofa, rug or other similar surface.

This product should never be placed near or over a radiator or heat register, or in a built-in installation unless proper ventilation is provided.

 Never push objects of any kind into this product through cabinet slots as they may touch dangerous voltage points or short-out parts that could result in a fire or electric shock. Never spill liquid of any kind onto or into the product.

- To avoid damage of internal components and to prevent battery leakage, do not place the product on a vibrating surface.
- Never use it under sporting, exercising, or any vibrating environment which will probably cause unexpected short current or damage rotor devices.

Using electrical power

- This product should be operated from the type of power indicated on the marking label. If you are not sure of the type of power available, consult your dealer or local power company.
- Do not allow anything to rest on the power cord. Do not locate this product where people will walk on the cord.
- If an extension cord is used with this product, make sure that the total ampere rating of the equipment plugged into the extension cord does not exceed the extension cord ampere rating. Also, make sure that the total rating of all products plugged into the wall outlet does not exceed the fuse rating.
- Do not overload a power outlet, strip or receptacle by plugging in too many devices. The overall system load must not exceed 80% of the branch circuit rating. If power strips are used, the load should not exceed 80% of the power strip's input rating.
- This product's AC adapter is equipped with a three-wire grounded plug. The plug only fits in a grounded power outlet. Make sure the power outlet is properly grounded before inserting the AC adapter plug. Do not insert the plug into a non-grounded power outlet. Contact your electrician for details.

Warning! The grounding pin is a safety feature. Using a power outlet that is not properly grounded may result in electric shock and/or injury.

Note: The grounding pin also provides good protection from unexpected noise produced by other nearby electrical devices that may interfere with the performance of this product.

 Use the product only with the supplied power supply cord set. If you need to replace the power cord set, make sure that the new power cord meets the following requirements: detachable type, UL listed/CSA certified, VDE approved or its equivalent, 4.5 meters (15 feet) maximum length.

Product servicing

Do not attempt to service this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Refer all servicing to qualified service personnel.

Unplug this product from the wall outlet and refer servicing to qualified service personnel when:

- the power cord or plug is damaged, cut or frayed
- liquid was spilled into the product
- the product was exposed to rain or water
- the product has been dropped or the case has been damaged
- the product exhibits a distinct change in performance, indicating a need for service
- the product does not operate normally after following the operating instructions

Note: Adjust only those controls that are covered by the operating instructions, since improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal condition.

Warning! For safety reasons, do not use non-compliant parts when adding or changing components. Consult your reseller for purchase options.

Your device and its enhancements may contain small parts. Keep them out of the reach of small children.

Additional safety information

- Do not look into the projector's lens when the light is on. The bright may hurt your eyes.
- Turn on the projector first and then signal sources
- Do not place the product in following environments:
 - Space that is poorly ventilated or confined. At least 50cm clearance from walls and free flow of air around the projector is necessary.
 - Locations where temperatures may become excessively high, such as inside of a car with all windows rolled up.
 - Locations where excessive humidity, dust, or cigarette smoke may contaminate
 optical components, shortening the life span and darkening the image.
 - Locations near fire alarms.
 - Locations with an ambient temperature above 40 °C/104 °F.
 - Locations where the altitudes are higher than 10000 feet.
- Unplug immediately if there is something wrong with your projector. Do
 not operate if smoke, strange noise or odor comes out of your projector. It

might cause fire or electric shock. In this case, unplug immediately and contact your dealer.

- Do not keep using this product to break or drop it. In this case contact your dealer for inspection.
- Do not face the projector lens to the sun. It can lead to fire.
- When switching the projector off, suggest to ensure the projector completes its cooling cycle before disconnecting power.
- Do not frequently turn off the main power abruptly or unplug the projector during operation. The best way is to wait for the fan to turn off before turning main power off.
- Do not touch air outlet grille and bottom plate which becomes hot.
- Clean the air filter frequently if have. The temperature inside may rise and cause damage when the filter/ventilation slots clogged with dirt or dust.
- Do not look into the air outlet grille when projector is operating. It may hurt your eyes.
- Always open the lens shutter or remove the lens cap when the projector is on.
- Do not block the projector lens with any object when the projector is under operation as this could cause the object to become heated and deformed or even cause a fire.
- Do not attempt to disassemble this projector. There are dangerous high voltages inside which may hurt you. Refer servicing only to suitable qualified professional service personnel.
- Do not stand the projector on end vertically. It may cause the projector to fall over, causing injury or damage.

Caution for Listening

To protect your hearing, follow these instructions.

- Increase the volume gradually until you can hear clearly and comfortably.
- Do not increase the volume level after your ears have adjusted.
- Do not listen to music at high volumes for extended periods.
- Do not increase the volume to block out noisy surroundings.
- Decrease the volume if you can't hear people speaking near you.

Disposal instructions

Do not throw this electronic device into the trash when discarding. To minimize pollution and ensure utmost protection of the global environment, please recycle. For more information on the Waste from Electrical and Electronics Equipment (WEEE) regulations, visit

http://www.acer-group.com/public/Sustainability/sustainability01.htm

First things first

Usage Notes

Do:

viii

- . Turn off the product before cleaning.
- Use a soft cloth moistened with mild detergent to clean the display housing.
- Disconnect the power plug from AC outlet if the product is not being used . for a long period of time.

Don't:

- Block the slots and openings on the unit provided for ventilation. .
- Use abrasive cleaners, waxes or solvents to clean the unit.
- . Use under the following conditions:
 - . In extremely hot, cold or humid environments.
 - In areas susceptible to excessive dust and dirt.
 - Near any appliance that generates a strong magnetic field. ٠
 - . Place In direct sunlight.

Precautions

Follow all warnings, precautions and maintenance as recommended in this user's guide to maximize the life of your unit.

- Warning:
- . Do not look into the projector's lens when the light is on. The bright may hurt your eyes.
- To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.
- Please do not open or disassemble the product as this may cause electric shock.
- When switching the projector off, please ensure the projector completes its cooling cycle before disconnecting power.
- Turn on the projector first and then the signal sources.
- . Do not use lens cap when projector is in operation.

Introduction

Product Features

This product is a single-chip DLP[®] projector. Outstanding features include:

- DLP[®] technology
- 1280 x 800 WXGA resolution Auto, Full, 4:3, 16:9, L.Box aspect ratio supported.
- Versatile display modes (Bright, Standard, Movie, Dark Cinema, Game, Sports, User) enable optimum performance in any situation.
- NTSC/PAL/SECAM compatible and HDTV (480i/p, 576i/p, 720p, 1080i/p) supported.
- Compact size projector facilitates business purposes and home entertainment.
- Acer EcoProjeciton Technology delivers Intelligent power management approach and physical efficiency improvement.
- Equipped with HDMI[™] connection supporting HDCP.
- Advanced digital keystone correction delivers optimum presentations.
- Multi-language on screen display (OSD) menus.
- Environmental light source and longer life by LED solution.
- Enjoy media playback via USB, RAM and SD card reader.
- Microsoft[®] Windows[®] 2000, XP, Vista[®] Windows[®] 7, Windows[®] 8, Macintosh[®] OS compliant.
- Support MHL V1.2 signal display.

Package Overview

This projector comes with all the items shown below. Check to make sure your unit is complete. Contact your dealer immediately if any thing is missing.

Getting Started

Connecting the Projector

| # | Description | | Description |
|---|-------------------------------|------------------|------------------------------------|
| 1 | Power cord | 6 | SD card |
| 2 | VGA cable | 7 ^(*) | USB disk/stick USB WiFi adapter |
| 3 | VGA to component/HDTV adapter | 8 | Composite video cable |
| 4 | 3 RCA component cable | 9 | Audio cable Jack/RCA |
| 5 | HDMI cable | 10 | USB cable |

Note: To ensure the projector works well with your computer, please make sure the timing of the display mode is compatible with the projector.

Note: USB cable needs powered extender if the length is over 5 m.

Turning the Projector On/Off

Turning on the Projector

- 1 Ensure that the power cord and signal cable are securely connected. The Power indicator LED will flash red.
- 2 Turn on the projector by pressing "**Power**" button on the control panel, and the Power indicator LED will turn blue.(Illustration #2)
- 3 Turn on your source (computer, notebook, video player ,etc.). The projector will detect your source automatically.
 - If the screen displays "No Signal", please make sure the signal cables are securely connected.
 - If you connect to multiple sources at the same time, use the "Source" button on either control panel or the remote control or direct source key on the remote control to switch between inputs.

Turning the projector off

- To turn the projector off, press the power button. This message appears:
 "Please press the power button again to complete the shutdown process."
 Press the power button again.
- 2 The LED power indicator will turn RED and blink rapidly after the projector is turned off, and the fan(s) will continue to operate for about 30 sec to ensure that the system cools properly.
- 3 Once the system has finished cooling, the LED power indicator will stop blinking and turn solid red to indicate standby mode.
- 4 It is now safe to unplug the power cord.

- **"Projector Overheated. Will automatically turn off soon."** This onscreen message indicates that the projector has overheated. The projector will automatically shut down. Contact your local dealer or service center.
- "Fan failed. Will automatically turn off soon." This onscreen message indicates that the fan has failed. The projector will automatically shut down. Contact your local dealer or service center.

.....

Note: Whenever the projector automatically shuts down, contact your local reseller or service center.

Adjusting the Projected Image

Adjusting the Height of Projected Image

The projector is equipped with tilt adjusting wheel for adjusting the height of image.

To raise/lower the image:

1 Use Tilt adjusting wheel to fine-tune the display angle.

Tilt adjusting wheel

How to optimize image size and distance

Consult the table below to find the optimal image sizes achievable when the projector is positioned at a desired distance from the screen. Example: If the projector is 1.5 m from the screen, good image quality is possible for image sizes 49.7".

| | Screen size | | Тор | |
|-------------------------|----------------------------|-----------------|---|--|
| Desired | (Min zoom) | | | |
| Distance (m) <a> | Diagonal (inch) | W (cm) x H (cm) | From base to top of image (cm) <c></c> | |
| 0.91 | 30.0 | 64 x 40 | 42 | |
| 1.00 | 33.2 | 71 x 45 | 47 | |
| 1.25 | 41.5 | 89 x 56 | 59 | |
| 1.50 | 49.7 | 107 x 67 | 70 | |
| 2.00 | 66.3 | 143 x 89 | 94 | |
| 2.41 | 80.0 | 172 x 108 | 113 | |

Zoom Ratio: 1.0x

User Controls

Installation menu

The installation menu provides an onscreen display (OSD) for projector installation and maintenance. Use the OSD only when the message "No signal input" is displayed on the screen.

The menu options include settings and adjustments for screen size and distance, focus, keystone correction and more .

- 1 Turn on the projector by pressing "**Power**" button on the control pad.
- 2 Press the "**MENU**" button on the control pad to launch the OSD for projector installation and maintenance.

| <u> </u> | acer |
|----------|---|
| | Installation Projection Mode |
| | Projection Location R022 C |
| | Manual Kaystone 0 Language d English |
| | Reset Press > |
| | |
| | |
| | |

- 3 The background pattern acts as a guide to adjusting the calibration and alignment settings, such as screen size and distance, focus and more .
- 4 The Installation menu includes the following options:
 - Projection Mode
 - Projection Location
 - •Auto Keystone settings
 - •Manual Keystone settings
 - Language settings
 - •Reset to factory default function

Use the up and down arrow keys to select an option, the left and right arrow keys to adjust selected option settings, and the right arrow key to enter a submenu for feature setting. The new settings will be saved automatically upon exiting the menu.

5 Push the menu button anytime to exit the menu and return to the Acer welcome screen.

Onscreen Display (OSD) Menus

The projector has multilingual OSD that allow you to make image adjustments and change a variety of settings.

Using the OSD menus

- To open the OSD menu, press "MENU" on the remote control.
- When the OSD is displayed, use the $(\blacktriangle)(\blacktriangledown)$ keys to select any item in the

main menu. After selecting the desired main menu item, press \bigcirc to enter submenu for feature setting.

- Use the () keys to select the desired item and adjust the settings by using the () keys.
- Select the next item to be adjusted in the submenu and adjust as described above.
- Press **"MENU"** on the remote control, the screen will return to the main menu.
- To exit OSD, press **"MENU"** on the remote control again. The OSD menu will close and the projector will automatically save the new settings.

| Dynamic Black | Choose "On" to automatically optimize the display of dark movie scenes enabling them to be shown in incredible detail. |
|---|---|
| Gamma | Effects the representation of dark scenery. With greater gamma value, dark scenery looks brighter. |
| Advanced | Brilliant Color |
| Advanced Contast Color On | Produces an expanded on-screen color spectrum that delivers enhanced color saturation for bright, true-to-life images. This feature is "On" by default. |
| ▲▼ Einlect 49 Adjust (1997) Main Menu | White Peaking Increases the brightness of whites that are near 100%. (video sources only) |
| | Noise Reduction Adjusts signal noise reduction."0" means the noise reduction is off, ">0" increase noise reduction. |
| | Black Extension Analyzes the current input image and calculates an offset value which is then added to the analog to digital converter black level value. This ensures optimum black level for each analog source. |

Note: "Saturation" and "Tint" functions are not supported under computer mode or HDMI mode.

Appendices

Troubleshooting

If you experience a problem with your Acer projector, refer to the following troubleshooting guide. If the problem persists, please contact your local reseller or service center.

| Image Problems and Solutions | |
|------------------------------|--|
| | |

| # | Problem | Solution |
|---|---|--|
| 1 | No image appears onscreen | Connected as described in the "Getting Started" section. Ensure none of the connector pins are bent or broken. Make sure you have removed the lens cap and the projector is switched on. |
| 2 | Partial, scrolling or incorrectly displayed image (For PC (Windows 95/98/2000/XP/ Vista/Win7)) | Press "RESYNC" on the remote control. For an incorrectly displayed image: Open "My Computer," open the "Control Panel," and then double-click the "Display" icon. Select the "Settings" tab. Verify that your display resolution setting is lower than or equal to 1080P-EIA. Click the "Advanced Properties" button. If the problem still appears, change the monitor display you are using and follow the steps below: Verify that the resolution setting is lower than or equal to 1080P-EIA. Click the "Change" button under the "Monitor" tab. Click "Show all devices". Next, select "Standard monitor types" under the SP box, and choose the resolution mode you need under the "Models" box. Verify that the resolution setting of the monitor display is lower than or equal to 1080P-EIA. |

| | L |
|---|---|
| ſ | |
| 6 | 1 |
| | |
| S | ï |
| | |

| 3 | Partial, scrolling or incorrectly displayed image (for notebooks) | Press "RESYNC" on the remote control. For an incorrectly displayed image: Follow the steps for item 2 (above) to adjust the resolution of your computer. Press the toggle output settings. Example: [Fn]+[F4], Compaq [Fn]+[F4], Dell [Fn]+[F8], Gateway [Fn]+[F4], IBM [Fn]+[F7], HP [Fn]+[F4], NEC [Fn]+[F3], Toshiba [Fn]+[F5] If you experience difficulty changing resolutions or your monitor freezes, restart all equipment including the projector. |
|---|---|---|
| 4 | The screen of the notebook computer is not displaying your presentation | If you are using a Microsoft[®] Windows[®] based notebook: Some notebook PCs may deactivate their own screens when a second display device is in use. Each has a different way to be reactivated. Refer to your computer's manual for detailed information. If you are using an Apple[®] Mac[®] OS based notebook: In System Preferences, open Display and select Video Mirroring "On". |
| 5 | Image is unstable or flickering | Adjust the "Tracking" to correct it. Refer to the "Image" section for more information. Change the display color depth settings on your computer. |
| 6 | Image has vertical flickering bar | Use "Frequency" to make an adjustment. Refer to the "Image" section for more information. Check and reconfigure the display mode of your graphics card to make it compatible with the projector. |
| 7 | Image is out of focus | Make sure the lens cap is removed. Adjusts the focus ring on the projector lens. Make sure the projection screen is within the required distance of 2.99-7.87 feet (0.91-2.40 meters) from the projector. Refer to the "How to Get a Preferred Image Size by Adjusting Distance and Zoom" section for more information. |
| 8 | Image is stretched when displaying a "widescreen" DVD title | When you play a DVD encoded in anamorphic or 16:9 aspect ratio you may need to adjust the following settings: If you play a 4:3 format DVD title, please change the format to 4:3 in the projector OSD. If the image is still stretched, you will also need to adjust the aspect ratio. Set up the display format to 16:9 (wide) aspect ratio on your DVD player. If you play an Letterbox(LBX) format DVD title, please change the format to Letterbox(LBX) in the projector OSD. |

| 9 | Image is too small or too large | Adjust the zoom ring on the top of the projector. Move the projector closer to or further from the screen. Press "MENU" on the remote control or on the control panel. Go to "Image> Aspect Ratio" and try different settings. |
|----|------------------------------------|---|
| 10 | Image has slanted sides | If possible, reposition the projector so that it is centered on the screen. Press the "Keystone △ / □ " on the OSD or the remote control until the sides are vertical. |
| 11 | Image is reversed | Select "Image> Projection" on the OSD and adjust the projection direction. |

Problems with the Projector

| # | Condition | Solution |
|---|--|---|
| 1 | The projector stops responding to all controls | If possible, turn off the projector, then unplug the power cord and wait at least 30 seconds before reconnecting power. |

OSD Messages

| # | Condition | Message Reminder | |
|---|-----------|---|--|
| 1 | Message | Fan Fail - the system fan is not working. | |
| | | Fan Fail. Lamp will automatically turn off soon. | |
| | | Projector Overheated - the projector has exceeded its recommended operating temperature and must be allowed to cool down before it may be used. | |
| | | Projector Overheated. Lamp will automatically turn off soon. | |

Ceiling Mount Installation

If you wish to install the projector using a ceiling mount, please refer to the steps below:

1 Drill four holes into a solid, structurally sound part of the ceiling, and secure the mount base.

Note: Screws are not included. Please obtain the appropriate screws for your type of ceiling.

2 Secure the ceiling rod using the appropriate type of four-cylinder screws.

3 Use the appropriate number of screws for the projector size to attach the projector to the ceiling mount bracket.

Note: It is recommended that you keep a reasonable space between the bracket and the projector to allow for proper heat distribution. Use two washers for extra support, if deemed necessary.

4 Attach the ceiling bracket to the ceiling rod.

5 Adjust the angle and positioning as necessary.

Note: The appropriate type of screw and washer for each model is listed in the table below. 3 mm diameter screws are enclosed in the screw pack.

| Models | Screw Type B | | Washer Type | |
|------------------|---------------------------|----|-------------|-------|
| | Diameter (mm) Length (mm) | | Large | Small |
| K335/L320/LK-W20 | 3 | 20 | V | V |

Regulations and safety notices

FCC notice

38

This device has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help. •

Notice: Shielded cables

All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.

Notice: Peripheral devices

Only peripherals (input/output devices, terminals, printers, etc.) certified to comply with the Class B limits may be attached to this equipment. Operation with non-certified peripherals is likely to result in interference to radio and TV reception.

Caution

Changes or modifications not expressly approved by the manufacturer could void the user's authority, which is granted by the Federal Communications Commission, to operate this device.

Operation conditions

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference. and (2) this device must accept any interference received, including interference that may cause undesired operation.

Notice: Canadian users

This Class B digital apparatus complies with Canadian ICES-003.

Remarque à l'intention des utilisateurs canadiens

Cet appareil numérique de la classe B est conforme a la norme NMB-003 du Canada.

Declaration of Conformity for EU countries

Acer hereby declares that this projector series is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

Compliant with Russian regulatory certification

Radio device regulatory notice

Note: The regulatory information below is for models with wireless LAN and/or Bluetooth only.

General

This product complies with the radio frequency and safety standards of any country or region in which it has been approved for wireless use. Depending on configurations, this product may or may not contain wireless radio devices (such as wireless LAN and/or Bluetooth modules).

Canada — Low-power license-exempt radio communication devices (RSS-210)

- a Common information
 Operation is subject to the following two conditions:
 1. This device may not cause interference, and
 2. This device must accept any interference, including interference that may cause undesired operation of the device.
- b Operation in 2.4 GHz band To prevent radio interference to the licensed service, this device is intended to be operated indoors and installation outdoors is subject to licensing.

List of applicable countries

This device must be used in strict accordance with the regulations and constraints in the country of use. For further information, please contact the local office in the country of use. Please see http://ec.europa.eu/enterprise/rtte/implem.htm for the latest country list.
